REVIEWS / SYNTHÈSES

Terence E. Hébert and Michel Bouvier Structural and functional aspects of G protein-coupled receptor oligomerization 1

Judy E. Anderson Studies of the dynamics of skeletal muscle regeneration: the mouse came back! 13

ARTICLES

Jie Pan and Nelly Auersperg Spatiotemporal changes in cytokeratin expression in the neonatal rat ovary 27

Kelly L. Jordan-Sciutto and David J. Hall A mutant E2F-1 transcription factor that affects the phenotype of NIH3T3 fibroblasts inefficiently associates with cyclin A – cdk2 37

M.S. Ridyard and E.J. Sanders Cellular phenotypic transformation during early embryogenesis: a role for focal adhesion kinase? 45

Pangala V. Bhat, Thomas Bader, Paul Nettesheim, and Anton M. Jetten Differentiation-dependent regulation of retinal dehydrogenase gene expression in the trachea 59

Richard R. Desrosiers, France Gauthier, Wei Lin, and Richard Béliveau Guanine nucleotides protect Rho proteins from endogenous proteolytic degradation in renal membranes 63

Hayfa A. Al-Mazidi, Leonard P. Kleine, and Douglas J. Franks The presence of an unusual PKC isozyme profile in rat liver cells 73

Janice Mayne and John J. Robinson The sea urchin egg yolk granule is a storage compartment for HCL-32, an extracellular matrix protein 83

Jing Zheng, Dale A. Redmer, S. Derek Killilea, and Lawrence P. Reynolds Characterization of heparin-binding endothelial mitogen(s) produced by the ovine endometrium during early pregnancy 89

P.M. Ouimet and M. Kapoor Analysis of complex formation between Hsp80 and Hsp70, cytosolic molecular chaperones of *Neurospora crassa*, by enzyme-linked immunosorbent assays (ELISA) 97

C. Stan Tsai and Q. Chen Purification and kinetic characterization of hexokinase and glucose-6-phosphate dehydrogenase from *Schizosaccharomyces pombe* 107

Bartholomew A. Pederson, James D. Foster, and Robert C. Nordlie Low-K_m mannose-6-phosphatase as a criterion for microsomal integrity 115

Huizhou Fan, Cristy Villegas, Arthur K. Chan, and Jim A. Wright Myc-epitope tagged proteins detected with the 9E10 antibody in immunofluorescence and immunoprecipitation assays but not in Western blot analysis 125

Kha D. Dang, Previn B. Dutt, and Donald R. Forsdyke Chargaff difference analysis of the bithorax complex of *Drosophila melanogaster* 129

NOTE

Paulo Caseiro Alves and Arnaldo Videira The membrane domain of complex I is not assembled in the stopper mutant E35 of *Neurospora* 139
